Autodesk® Subscription

Autodesk® Subscription

Optimize your Software Investment.

Enjoy productivity gains with the latest product releases, predictable budgeting, technical support, simplified license management, and access to training when you add Autodesk® Subscription to your Autodesk software purchase.

Introducing Autodesk Subscription

When you join the Autodesk Subscription program, you're joining a community of technical professionals interested in getting the most out of the best design tools. With resources and events just for Subscription customers, including premium benefits at Autodesk University, exclusive webcasts, and prequalification for software beta programs, you'll be able to optimize your Autodesk software and stay ahead of the competition. Specifically, you'll enjoy:

- All new software updates for Autodesk products released during your contract are automatically made available to you via electronic download or physical shipment
- Direct, one-to-one communication with Autodesk support technicians via web support
- Self-paced e-Learning lessons to help you get the most out of your products
- Extended license privileges and entitlement to run previous versions under certain conditions
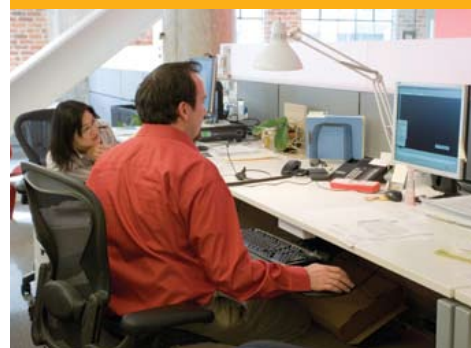

Software Upgrades
Automatic and Worry Free

For the term of your subscription contract, you are entitled to receive all software releases and updates at no additional charge for products on subscription. Autodesk Subscription protects your investment in your design technology and helps you stay competitive by keeping your design software up to date.

Predictable Budgeting
Remove Financial Surprises

Subscription offers a way to make software costs predictable. Whether you opt for a one-year subscription or a multi-year contract, your costs are known for the entire term of the subscription contract.

Software Licensing
Hassle-free and Flexible

Autodesk Subscription makes managing software licenses easier. You'll have added flexibility to allow your employees to use their Autodesk software in the office or at home. Better yet, designers are entitled to run previous versions of the software concurrently with the latest release under certain conditions, so customers can chose which version to use.

Product Extensions
A Subscription Exclusive

Extensions are available exclusively to Autodesk Subscription customers. Extensions are modular enhancements to some Autodesk software. They provide new functionality, are fully compatible with the base product, and are easy to learn. New extensions are added frequently and can be downloaded from Subscription Center.

e-Learning
Get up to Speed Quickly

e-Learning lessons give customers a quick and easy way to learn about the features and functionality of most current products and previous versions. Choose from a range of online tutorials by logging into Subscription Center or by accessing e-Learning directly from your products. These short lessons are available on demand and complement more in-depth training provided through Autodesk Authorized Training Centers or Autodesk Authorized Resellers.
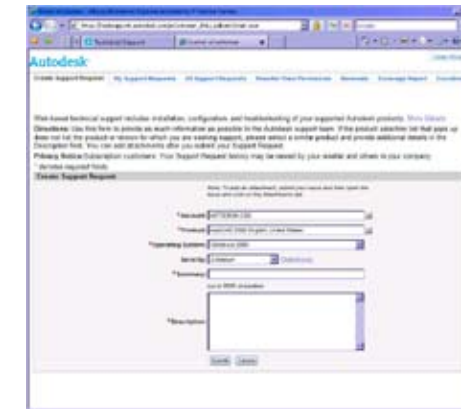

Web Support
Direct and Easy

With web support you get direct, one-to-one communication with Autodesk support technicians for answers to your installation, configuration, and troubleshooting questions. Web and email communications deliver support straight to your desktop.

How to Sign Up

You can purchase products with Autodesk Subscription through your existing sales channel, whether that's directly from an Autodesk sales representative or through our network of reseller partners.
